The Galena City School District seeks an inspirational and service oriented PreK–6th grade principal who will accelerate the momentum already established through our refined, data-driven systems and high-impact instructional programs. We are not looking for a change agent (as many significant curricular, personnel, platform and infrastructure modifications have occurred to get us to where we are now); we are seeking a leader who can confidently drive forward the proven processes, structures, and expectations that deliver significant measurable results for our students.
