POSITION OPENING: Senior Technology Coordinator

IN THIS ROLE:

You will enjoy managing the day-to-day activities of the Technology Field Services Team responsible for technology integration, planning, project management, implementation, user support, and training throughout the assigned Oakland County districts. This position requires managing service level agreements with internal and external service providers; working cooperatively with users and teams to develop solutions to complex district needs as well as manage tech integration for enterprise support systems requiring technology selection or development, deployment planning, and professional development and support. It also requires actively participating in the development and implementation of district strategic/ operational plans, programs, systems, standard operating procedures, technologies, and record-keeping practices, as well as budget development and implementation.

WHAT WE NEED:

You will serve as a pivotal strategic leader and hands-on technology resource, partnering closely with Oakland Schools IT Leadership, district representatives, end users, and external agencies to shape, coordinate, and execute the district's comprehensive Technology Plan while translating broad instructional and operational goals into actionable project priorities. In this multifaceted role, you will analyze the current business and educational environments to pinpoint critical deficiencies, evaluate existing procedures, and stay ahead of emerging industry trends so you can recommend innovative enterprise, district, and regional software standards that solve complex organizational needs. As a technology integration manager, you will assemble and lead cross-functional project teams—comprising vendors, district executives, and staff—through the entire lifecycle of technology selection, design, testing, deployment, and professional development, while actively participating in technology and curriculum committees and scheduling regular team meetings to maintain alignment and momentum. Alongside providing direct technical assistance to optimize the use of automated administrative and instructional systems, you will take ownership of critical fiscal and operational governance by assisting with budget development, managing capital, expense, and service contract budgets, overseeing vendor service level agreements, ensuring strict regulatory compliance and data confidentiality, and preparing essential reports and up-to-date records to drive continuous improvement across the district.

WHAT YOU NEED:

- Bachelor's degree in Educational/Instructional Technology or related field and a minimum of five years of related experience; or other equivalent combination of education and experience from which comparable knowledge and abilities can be acquired.
- Ability to properly utilize tools and equipment necessary in conducting training workshops.
- On-call availability to handle work problems at all hours is required.

SALARY DETAILS:

$82,902 - $103,531 salary based on relevant prior work experience.
Exempt position / 12-month work year.
This is a field services position in which employees perform their job duties onsite in a local district each day.
