Hamilton Southeastern Schools

Fishers, Indiana

Mission Statement:

Hamilton Southeastern, as an innovative school community, provides an educational opportunity for each student to achieve maximum potential, to become a responsible citizen and to influence an ever-changing world community.

District Description:

Hamilton Southeastern Schools is a high-performing suburban school district serving approximately 20,000 students northeast of Indianapolis. Its reputation for challenging academic and excellent extra-curricular programs has helped make it the fastest growing school corporation in Indiana. Student enrollment has grown by as many as 350 - 1,200 students each of the last ten years.

At the same time, the corporation has accommodated new students by building modern, high-tech facilities at all grade levels. Even with record enrollment increases, HSE students and the schools they attend continue to earn recognition at local, state and national levels for exemplary performance on college entrance and standardized exams. HSE's average 2013 SAT score with 90 percent of graduates testing was 1612 compared to 1470 for the state and 1498 for the nation.

Ninety-four percent of the Class of 2013 planned to pursue post-secondary education by attending a two- or four-year college or vocational school after high school.

In addition, HSE Schools offers award-winning extracurricular programs in the arts, athletics and academics. This success is a result of the high educational expectations set by the HSE Board of School Trustees, teachers, administrators, parents, students and the entire community.
