

## Professional Standards for School Nutrition Program Professionals

### *Summary of Updates Effective May 2019*

In the final rule, *Professional Standards for State and Local School Nutrition Programs Personnel as Required by the Healthy, Hunger-Free Kids Act (HHFKA) of 2010*, USDA established minimum professional standards requirements for school nutrition professionals who manage and operate the National School Lunch and School Breakfast Programs. The standards set the minimum education standards for new State and local school nutrition directors as well as annual training standards for all school nutrition professionals. These standards ensure school nutrition professionals have the knowledge, training, and tools they need to plan, prepare, and purchase healthy food to create nutritious, safe, and enjoyable school meals. The additional final rule, *Hiring Flexibility under Professional Standards*, establishes flexibilities for hiring standards under the Professional Standards regulations.

These final rules:

- Create minimum hiring standards for new school food authority (SFA) directors based on a school district's size;
- Establish minimum hiring standards for new State directors of school nutrition programs and State directors of distributing agencies;
- Add 4 flexibilities to the hiring standards for new school nutrition program directors in small local educational agencies (LEAs) and new State directors of school nutrition programs; and
- Require minimum annual training for all new and current school nutrition professionals.

**USDA Professional Standards Training Database** (<https://professionalstandards.fns.usda.gov>) has free to low-cost trainings available and is updated regularly. You can search the database by key areas, topics, type of training, and more.

**USDA Professional Standards Training Tracker Tool (PSTTT)** (<https://pstrainingtracker.fns.usda.gov>) is an optional, free, record-keeping web-based tool that can be used to track required training hours.
