

The Role:

As a Clinical Counseling Intern, you will play a crucial role in delivering mental health support and counseling services to students across K-12 levels. You will work under the supervision of licensed clinical staff to assess, plan, and implement counseling strategies that address the emotional, behavioral, and social needs of students.

Key Responsibilities:

- Provide individual and group counseling to students experiencing emotional, behavioral, or academic challenges.
- Assist in the development and implementation of prevention and intervention programs.
- Collaborate with school staff, parents, and external agencies to support student needs.
- Participate in multidisciplinary team meetings to discuss and plan student care.
- Conduct psychoeducational assessments under supervision.
- Engage in professional development activities, including training and supervision sessions.

Qualifications:

- Currently enrolled in a graduate program in Clinical Counseling, Psychology, Social Work, or a related field.
- Previous experience working with children or adolescents in educational, clinical, or community settings is preferred.
- Strong interpersonal, communication, and problem-solving skills.
- Demonstrated commitment to diversity, equity, and inclusion.
- Ability to work collaboratively within a multidisciplinary team.
- Adherence to the ethical principles outlined in the American Counseling Association's Code of Ethics.
- Must pass a background check and meet district requirements for working in schools.

Benefits:

- Gain valuable hands-on experience in clinical counseling within an educational setting.
- Receive supervision and mentorship from experienced clinical professionals.
- Opportunity to impact the lives of students and contribute to a supportive school community.
- Flexible schedule to accommodate academic commitments.
