

Success Academy

Introduction

Mission:

Success Academy exists to provide a highly structured environment for general education students who have not responded to conventional academic and disciplinary interventions. The program seeks to equip students with the strategies necessary to improve their ability to function in educational, social, and family environments. As a result, Success Academy will produce students who will return to their regular education classrooms at a higher level of functioning than before, allowing them to be “learning ready” once again.

What You Might Need To Know About Success Academy:

- **Our goal is for students to return to their regular classrooms.**
- **Students will begin on the restricted level and must work their way up to the successful level earning privileges along the way.**
- **Students will be working on their core class on Apex Online Program.**
- **Students will participate in an affective ed. group and 1 individual counseling session per week with their grade level counselor.**
- **Upon entry, students will sign a “Success Academy Agreement of Trust and Understanding,” in which students agree to abide by the program standards and expectations**
- **Students who do not follow program expectations, fail to progress through Restricted and In Progress levels, or fail to maintain adequate progress in APEX will be recommended to Welte Education Center.**
- **Students who reach the Advanced Level (80% weekly average on point sheet AND 75% or better grades) will return to their regular classes with an ongoing plan for academic success and appropriate behavior. Success Academy staff will help to facilitate the student’s re-entry into their classes and provide on-going support.**
