Suggested minimum language for a posting: [School District] is seeking a Minnesota-licensed Health Science Education (HSE) medical careers teacher (function code 300300) for the upcoming school year.

Suggested exemplary language for a posting: [School District] is seeking a 1.0 FTE Health Science Education (HSE) teacher for the upcoming school year. Courses taught may include medical terminology, first aid, nursing assistant, nursing clinicals/work-based learning, and others. The program has a brand-new nursing and clinicals lab. The teacher will also advise the school's HOSA program. Candidates must have a current HSE medical careers teaching license (function code 300300) and a relevant industry certification/license, degree, and industry experience related to nursing and health science. Additionally, the work-based learning (WBL) endorsement (160000) is preferred, but not required. [School District] provides mentoring to all new, early-career teachers and free paths to teacher licensure in medical careers for those who need assistance.

Education and Early Childhood
