"The mission of Vestaburg Community School is to build a foundation and prepare students for their future."

SUMMARY:

The Robotics Coach is responsible for leading, guiding, and mentoring high school students in all aspects of a competitive robotics program. The coach will facilitate a positive, safe, and educational environment, empowering students to design, build, program, and operate a robot while adhering to competition rules and promoting core values such as teamwork, innovation, and respect. This role requires a strong understanding of robotics principles, excellent organizational skills, and the ability to inspire and empower young minds.

Qualifications

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed represent the required knowledge, skill, and/or ability. Reasonable accommodations may enable individuals with disabilities to perform essential functions.

- Demonstrated ability to teach, mentor, and motivate high school students.
- Excellent organizational, communication, and interpersonal skills.
- Ability to work independently and as part of a team, adapting to dynamic situations.
- Commitment to fostering a positive, safe, and inclusive learning environment.
- Must be able to pass a background check and obtain necessary clearances as required by the school district.
- Valid driver's license and ability to travel for competitions.
- Technical experience preferred
- [Full Job Description](#)

Compensation:

- Per Master Agreement

Deadline:

- Until Filled
