RE: REQUIRED MANTOUX (TB) EXAMINATION

The New Jersey Department of Education requires that all employees (full or part time) of the Board of Education must have a Tuberculin Test (Mantoux Test) in order to work within a school district.

If you have already had this test, you may show proof of such at the Office of the Superintendent. If you have not had a Mantoux Test, your physician can administer it.

You will not receive a contract, or your name submitted as a substitute until this requirement has been completed.
