

2025-2026 Scholarship Video Response Instructions

Please use a video recording device (cell phone, webcam, digital camera) to record your submission to the prompt:

Introduce yourself and describe your current position at NCISD. Explain to the committee how your current and/or previous experiences have helped prepare you for your future career goal(s).

Recordings are not to exceed one minute and thirty seconds

Once completed, please email the video file to Daniel Salinas at dsalinas@newcaneyisd.org. You can upload your video to your Google Drive and share a link if you are having trouble emailing it as a larger file size. You will receive a confirmation email once your video is received and reviewed for technical issues.

Further information:

The original video file (ie: recording your response directly from your phone's camera) is sufficient for submission, but should you want to edit your video in any way, here are resources you can access as an NCISD Employee.
